Chief Executive Officer

By Division

By End Market

By Geography

* FY 2017

EUR Million

- E&I has a balanced exposure between O&G and other end markets
- Opex revenues have remained resilient throughout the O&G spending cycle
- Capex revenues have declined materially with the sustained lower Oil price over the previous three years
- With our installed base and market leading position we expect to benefit from any Capex recovery

Figures @ actual rates.
2018 O&G growth @ constant rates +3.5%

- Mid single digit organic revenue growth which was on an improving trend through the year
- Double digit organic revenue growth in Q4 driven by some significant projects in LatAm, Middle East and Canada
- Oil & Gas recovery driving the improvement in the division
- Slight organic margin improvement at constant rates
- Acquired Talon Test (Aerospace NDT in USA) in Q4 with \$4.5 million revenue
- Disposed of manpower business in the UK in Q4

- North America (27% of division revenue) grew low single digit on better market conditions. Oil & Gas improvement from smaller capex projects, pipeline integrity services and facility turnarounds. Canada saw growth of NDT outside of Oil & Gas
 - LatAm (10%), double-digit growth with a significant performance improvement in most countries. All end markets, Oil & Gas, Power and Infrastructure performing well
 - Northern Europe (18%), down mid single digit mainly due to fewer large pipeline international projects managed out of the region. Local business, mainly downstream, remained stable
 - Southern Europe, Africa, Middle East, Asia-Pac (45%), strong growth led by Spain, Middle East and Oceania performing well in all end markets. Africa and South East Asia down due to lower Oil & Gas investment
-

EUR Million

FY 2018 Revenue

FY 2018 Adj. Op. Profit

- Double-digit revenue and profit growth
- Electromagnetic compatibility services for the Auto industry strongest growth
- Construction, IT, Metrology growing double-digit
- Five small acquisitions made in 2017 and 2018 at good multiples with high growth and margins and total annual revenue of €12 million
- Further acquisition opportunities

Automotive Division (I)

EUR Million

FY 2018 Revenue

FY 2018 Adj. Op. Profit

- Excellent performance in the year both on an organic and reported basis
- Q4 organic revenue flat mainly due to high comparable period (+8.2% in Q4 2017) and one-off sales of equipment on the new Massachusetts contract
- Negative FX in both revenue and profit mainly due to Argentina. Excluding Argentina, Organic revenue growth was 3.3% and FX impact (1.2)%
- Good performance from Inversiones Finisterre and new contracts in Uruguay and Ecuador started as expected

- Mid single digit organic revenue growth in Spain. Menorca (€1.8m pa) chose not to rebid, ended in Q4
- Ireland grew low single digit. Tender for 2020 renewal on track with outcome expected by May/June 2019
- Nordic countries flat
- US programmes performing well but H2 revenue below last year due to prior year's one off equipment sales related to the new Massachusetts contract. Small contracts renewed but Washington (€8m pa) will terminate end of 2019
- LatAm, strong performance in all countries and good ramp up in Uruguay and Duran (Ecuador). New taxi inspection contract won in Argentina for 5 years (€2.5m pa) and a second contract won in Ecuador (Portoviejo)
- Small new contract in the country of Georgia - the first for Applus+ in the region
- Good pipeline of greenfield and market share opportunities

EUR Million

FY 2018 Revenue

FY 2018 Adj. Op. Profit

- Strong revenue and profit growth in all business lines and margin improvement with electric vehicle and advanced driver assistance systems the leading growth areas
- Low organic revenue growth in Q4 (+2.4%) mainly due to discontinued low profitable activities
- Homologation (16% of the division) up mainly due to WLTP (new EU emission standard) which has opened up new relationships
- Proving ground (19%) some additional capacity added and new Connected and Autonomous Vehicle track under construction
- Acquisition of Karco crash testing in the US with €4m annual revenue performing well

Applus+ Argentina

- Two contracts within the Auto division only
- Revenue of €18 million in 2018 at December period end exchange rates
 - 1.1% of Group revenue / 4.8% of Auto division revenue
- Margin similar to Auto division margin

Argentina is considered hyper-inflationary from 1 July 2018 and IAS 29 is applicable for the full year of 2018

- Local accounts are restated by applying a general price index
- Financial statements are then consolidated at closing rates (IAS 21)

Impact on financial statements for 2018

- Revenue and adjusted operating profit reduction of €1.8 million and €0.7 million respectively
 - Finance expense increase of €1.4 million
 - Equity increase of €2.0 million
-

Effective from 1 January 2018

- Replaces the requirements in IAS 39 relating to the classification, measurement, recognition and de-recognition of financial assets and liabilities, hedge accounting and impairment
- Applus+ has adopted a new impairment model to measure its third party accounts receivable

Impact on financial statements for 2018

- Impairment of accounts receivable of €6.0 million
 - Increase in deferred tax asset of €1.5 million
 - Equity reduction of €4.5 million
 - No impact on working capital or cash flow statement
-

Effective from 1 January 2019

- IFRS 16 supersedes IAS 17
- Operating leases (with certain limited exceptions) are accounted for like finance leases (amortisation of the right-of-use asset plus a finance charge)

Impact on financial statements

- The opening balance sheet for 2019 is adjusted as follows:
 - Increase in Non Current Assets €162 million
 - Increase in Non Current Liabilities €181 million
 - Decrease in Equity €15 million
 - Increase in Deferred Tax Assets €4 million
 - If IFRS 16 applied to the 2018 accounts, the adjustments would have been:
 - Decrease in Operating Costs €53 million (being leasing costs in 2018)
 - Increase in Amortisation €45 million
 - Increase in Finance Expenses €8 million
 - Resulting in increase in EBITDA by €53 million and Adj. Op Profit by €8 million
-

Impact on leverage

- The reported Net Debt and EBITDA will increase resulting in a different leverage ratio from before IFRS 16 applied

- If IFRS 16 applied to the 2018 accounts, the adjustments would have been
 - Increase in Net Debt €181 million
 - Increase in EBITDA €53 million

- Bank and USPP covenants in place are nevertheless unaffected as they are all defined at “frozen GAAP” which is before applying IFRS 16
